Raspberry Pi 3 SD Card Replacement

Replace the SD card for the Raspberry Pi 3.

Written By: ΛΛΚΛRΞT

INTRODUCTION

In this guide I will show you how to change SD card in your Raspberry Pi 3.

TOOLS:
- Pair of Hands (1)

PARTS:
- Raspberry Pi 3 (1)

## Step 1 — Raspberry Pi 3 SD Card replacement.

📌 The Raspberry Pi 3 should look like this closed.

Step 2 — Top cover removal

● Open the top lid like I have done on the image.

ⓘ The top is marked that you are gonna remove in the next step.

Step 3 — Cover for GPIO Hider and IO Shield removal

- Now remove the cover for the two covers.
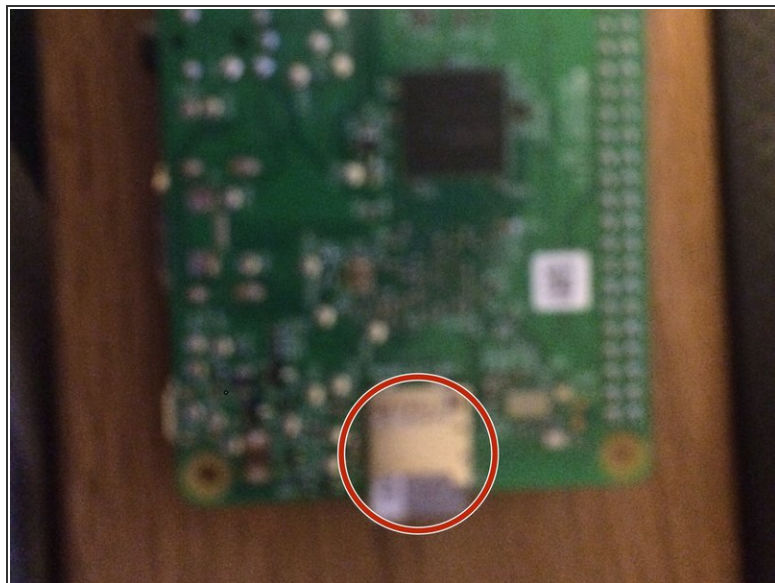

- (i) It should look like the image.

- (i) I have marked the covers for the next step.

Step 4 — IO Shield and GPIO Hider removal

- Remove the two sides.

- (i) It should look like the image.

Step 5 — Removal.

- Now we should successfully have removed the case.

- *(i)* Notice that the side shown on the first image is the one that we are intrested in.

- *(i)* When we have flipped the Pi 3 over we can remove the SD card.

To reassemble your device, follow these instructions in reverse order.
