Step 1 — Backup Battery

- The CR2032 compartment is located on bottom left corner on the backside of the device.

- Unscrew the single 4 mm Phillip screw and slide the compartment cover off.

- ⓘ The 4 mm Phillip screw will not completely screw out of the cover.

Step 2

- Gently remove the CR2032 battery with your fingers.

- ⚠ A charged lithium-ion battery can catch fire and/or explode if accidentally punctured.

To reassemble your device, follow these instructions in reverse order.
