

Shark Navigator Freestyle SV1106 Dust Cup Replacement

Replace your Shark Navigator Freestyle SV1106 dust cup to ensure proper debris storage when vacuuming.

Written By: Zachary Liu

INTRODUCTION

When your dust cup has apparent damages or emptying it does not improve vacuum suction, it is time to replace your dust cup.

Step 1 — Dust Cup

- Push the grey button on top of the dust cup canister and pull the canister off at the same time.

⚠ Make sure the dust cup is empty and the vacuum is off before replacing.

Step 2

- Press the grey clip at the bottom of the dust cup to open the dust cup.

To reassemble your device, follow these instructions in reverse order.
