INTRODUCTION

How to replace the battery of a Dell XPS 15 9530.

TOOLS:

- [Spudger](#) (1)
 - [Phillips #0 Screwdriver](#) (1)
-

Step 1 — Unscrewing the Base-Cover Assembly

- After turning off the system, unscrew the 12 Philips screws (#1) that are on the bottom of the laptop.
- ⚠ Don't forget to unscrew the two screws hidden under the system badge!

Step 2 — Prying Off the Base-Cover Assembly

- Using a spudger or some other prying tool (#1), pry off the base-cover assembly from the rest of the system.

Step 3 — Remove Battery

- Remove the screws that secure the battery to the palm-rest assembly.
 - Disconnect the battery cable from the system board.
 - Lift the battery off the palm-rest assembly.
- ⓘ After you remove the battery, turn the computer over, open the display, and press the power button for about five seconds to ground the system board.

To reassemble your device, follow these instructions in reverse order.
