

# Garmin Nuvi 260W Screen Replacement

How to replace a Garmin Nuvi 260W screen.

Written By: Hunter Johnson

#### **INTRODUCTION**

This device can be identified utilizing the criterion on the device page. When replacing the screen, be sure to set aside the following tools: T5 Torx screwdriver and plastic opening tool.

# **TOOLS:**

- T5 Torx Screwdriver (1)
- iFixit Opening Tools (1)

# Step 1 — Screen

 Carefully remove model/serial number sticker.

# Step 2

Remove two 4mm T5 Torx screws located under the sticker.

### Step 3

 Once the screws are removed, use the plastic opening tool to carefully separate the body from the screen encasing.

# Step 4

 Once the body of the n\u00fcvi is separated, carefully flip the tabs on the motherboard that secure the ribbon cable to the motherboard and disconnect.

# Step 5

 Use a plastic opening tool to loosen the three clips located on the top of the screen encasing to a position that loosens the hold on the screen.

# Step 6

 Use a plastic opening tool to loosen the two clips on the short sides of the Nuvi screen encasing to a position that allows the removal of the screen.

To reassemble your device, follow these instructions in reverse order.
