INTRODUCTION

This guide walks through the steps of locating and removing the WLAN card on your Dell Latitude E4310 Latptop.

🔧 TOOLS:

- Phillips #1 Screwdriver (1)
- Spudger (1)

This document was generated on 2020-11-28 06:38:01 AM (MST).
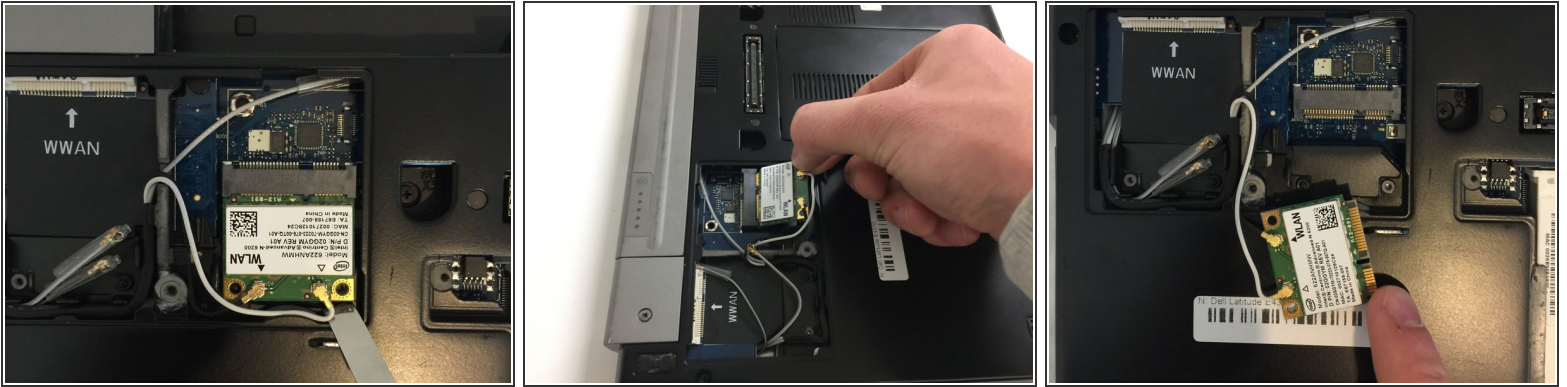

Step 1 — Mini Card Door

- Remove the single Phillips #1 screw.

  - (i) This screw will not necessarily come off of the panel.

- Lift up and remove with your fingernail, or a spudger, from the side of the door with the screw.
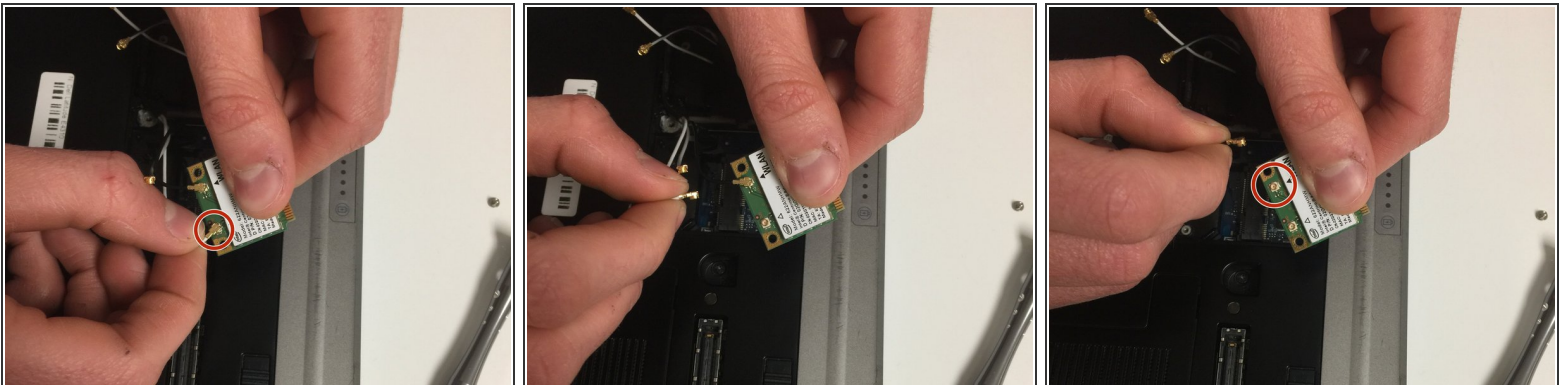

Step 2 — MiniCard

- Remove the single Phillips #1 screw.

Step 3

- Use a spudger to pry up the card.

- Pull the card up and out of its slot.

Step 4

- Pull the white and black antenna cables off of the card.

- (i) Make note of these connectors (mark with a marker or pen) as they must be the right connectors for the card to work properly.

To reassemble your device, follow these instructions in reverse order.
