# MSI GS70 Battery Replacement

Use this guide when you want to replace and/or...

Written By: Billy Faulconer

INTRODUCTION

Use this guide when you want to replace and/or recycle your battery.
🔧 TOOLS:

Magnetic Project Mat (1)
Spudger (1)
JIS Driver Set (1)

⚙ PARTS:

MSI BTY-L76 Battery (1)

Step 1 — Battery

⚠ Make sure that the laptop is turned off before starting.
● Place laptop with the bottom plate facing up.
Step 2

- Remove all screws using the JIS #1 screwdriver.
Step 3

- Remove the back plate.
- Locate the battery.

Step 4

- Locate the foil connector above the battery.

Step 5

- Flip up both black clips with your spudger.

Step 6

- Remove the foil connector by pulling on the blue tabs.

Step 7

- (i) After the foil connector is removed you will see an 8 pin connector.

- Disconnect the 8 Pin connector.

Step 8

- Lift the battery and remove.

To reassemble your device, follow these instructions in reverse order.
