

# HP Pavilion G7-2289wm RAM Replacement

This guide provides instruction on how to...

Written By: Ryson Smith

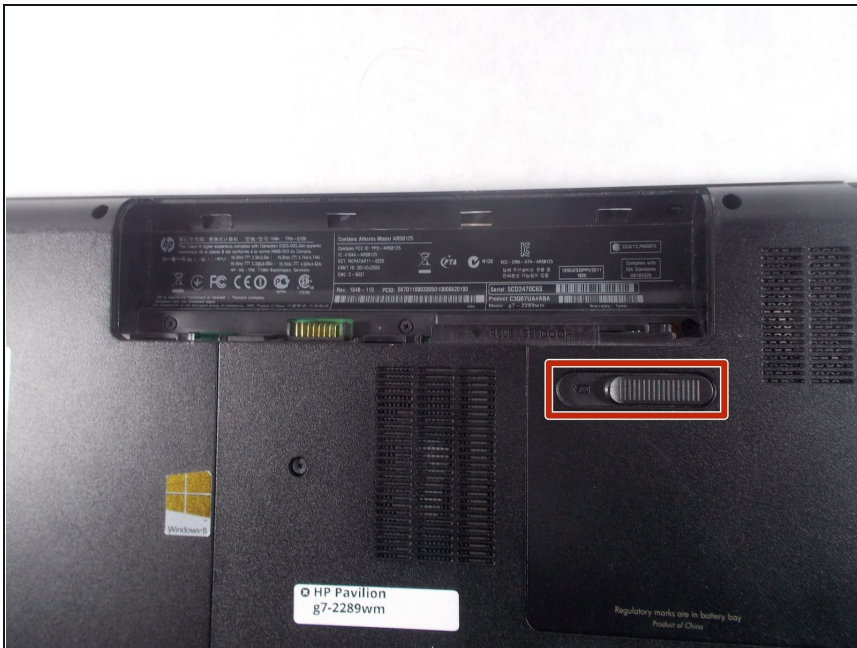

# INTRODUCTION

This guide provides instruction on how to replace the RAM module.

## TOOLS:

Phillips #0 Screwdriver (1)

## Step 1 — Battery

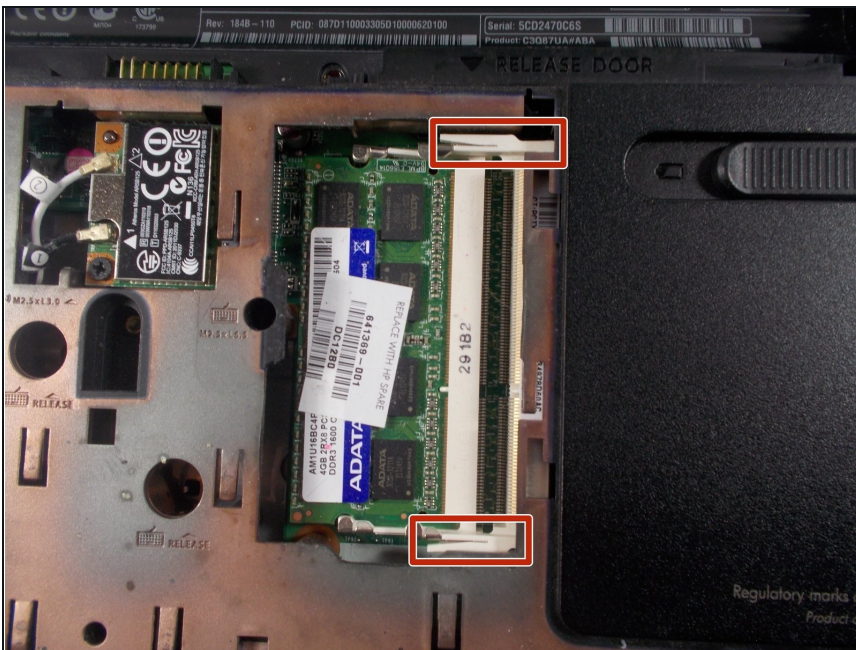

- Located on the bottom side of your laptop, slide the battery release latch to the left, towards the center of the laptop.
- Lift the battery up, and pull towards the center of the laptop to remove it.

## Step 2 — RAM

- Loosen the screw that secures the service cover.
- Pull the service cover towards you to remove it.

## Step 3

- Unlock the tabs on each side of the ram module. (this lifts the ram module up)

## Step 4

- Remove the ram module by pulling it gently away from the slot.

---

To reassemble your device, follow these instructions in reverse order.
