

Dell Studio 1535 Memory Module Replacement

Written By: Johnathan Hammond

TOOLS:

- [Phillips #0 Screwdriver](#) (1)
-

Step 1 — Battery

- Slide the battery release latch until it clicks into place.
- Turn the computer top side up, open the display, and press the power button to ground the system board.

Step 2 — Base Cover

- Turn the computer top side up, open the display, and press the power button to ground the system board.

Step 3 — Memory Module

- Use your fingertips to carefully spread apart the securing clips on each end of the memory module connector until the module pops up.
- Remove the module from the connector.

To reassemble your device, follow these instructions in reverse order.
