

Lenovo Z70-80 Optical Drive Replacement

This guide will demonstrate how you can replace...

Written By: Eduardo Delgado

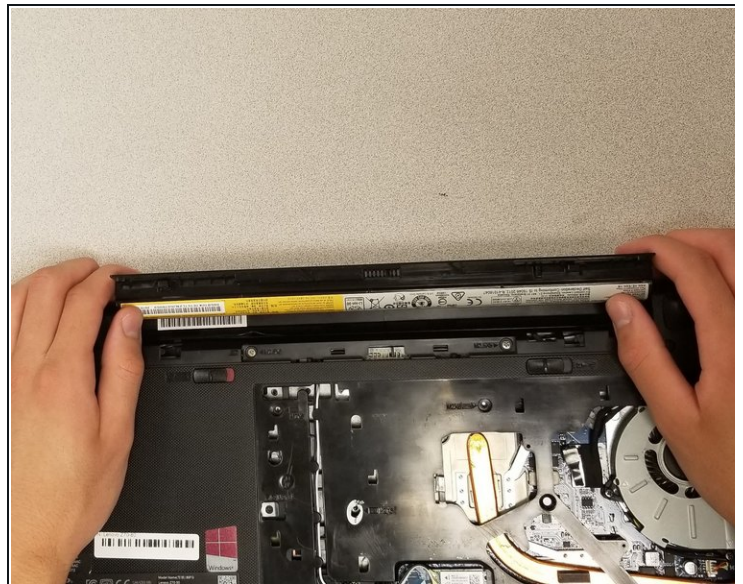

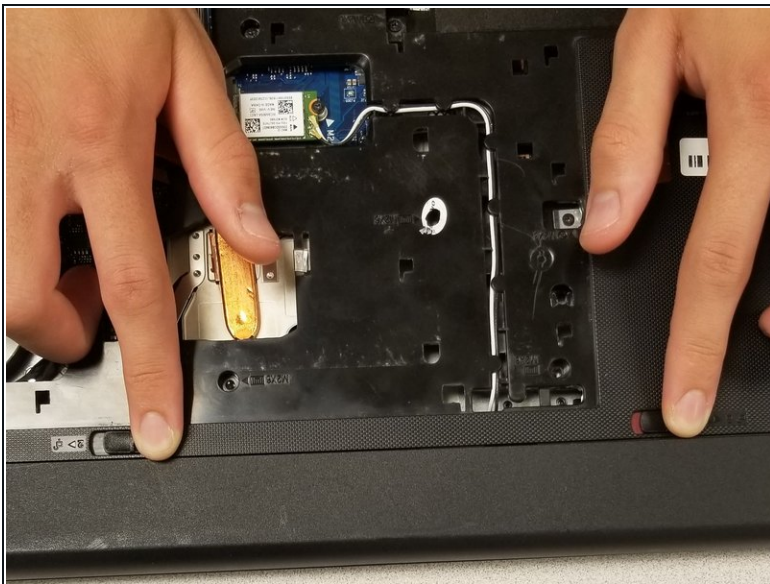

INTRODUCTION

This guide will demonstrate how you can replace the optical drive on your Lenovo Z70-80 laptop.

TOOLS:

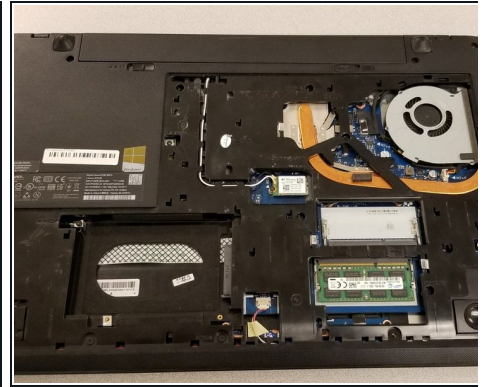

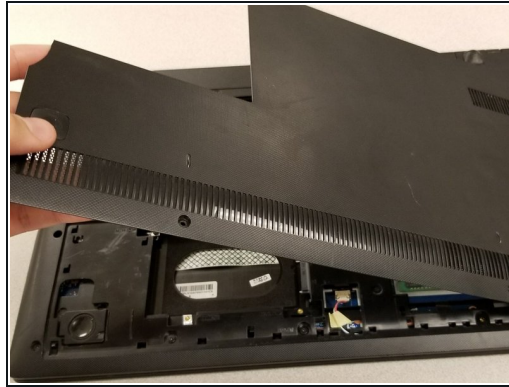

Phillips #0 Screwdriver (1)

Step 1 — Battery

- Use your fingers two push both latches away from each other to release the battery.
- Pull the battery out.

Step 2 — Back Panel

- Remove the two Phillips #0 screws from the bottom panel.
- Slide the panel down slightly, and then lift to pull it off.

Step 3 — Optical Drive

- Remove the single 3mm Phillips #0 screw from the optical drive.
- Pull the optical drive out of the side.

To reassemble your device, follow these instructions in reverse order.
