INTRODUCTION

Replacing the battery is a simple fix that even a beginner can accomplish successfully.

Step 1 — Battery

- Locate the battery locks on the bottom of the laptop.
- Slide the right lock outwards, until it locks into place.
- Slide and hold the left lock outwards and hold it in place.

Step 2

- While holding the lock in place, slide the battery out towards you.

To reinsert the battery, follow the steps in reverse order, remembering to slide the right lock back into place.
