Microsoft Wireless Mobile Mouse 1850 Battery Replacement Replacement

Written By: Jed Calvert
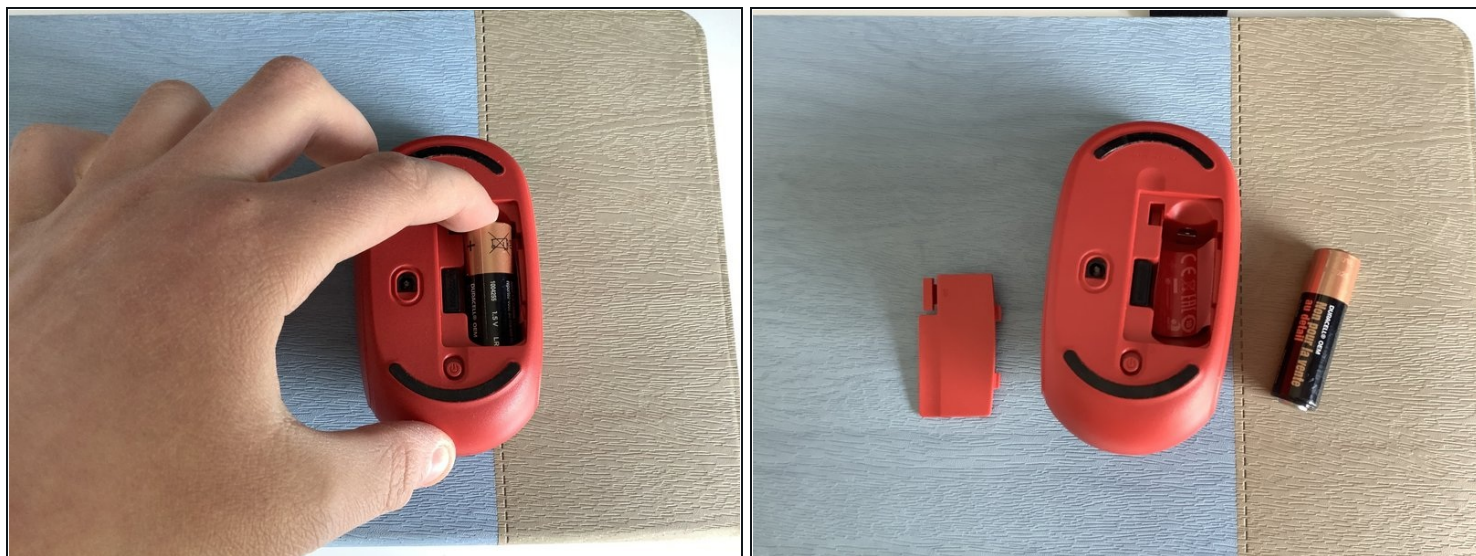

Step 1 — Turn the mouse onto its back

- You will want to use a clean surface to avoid damaging your mouse

Step 2 — Remove the rear door

- Gently press the tab, and pull the door up and away from the body of the mouse

Step 3 — Remove the battery

- Using your fingernail, pull up on the top of the battery and take it out of the slot.

Step 4 — Add a new battery

- Slide the battery into the slot, and push down on it firmly. It will click into place.

Step 5 — Replace the rear door

- Slide the rear door back into place, and push down on it. It will click into place.

Done!
