Complete disassemble procedure for sidekick phone.

Written By: Rich

TOOLS:

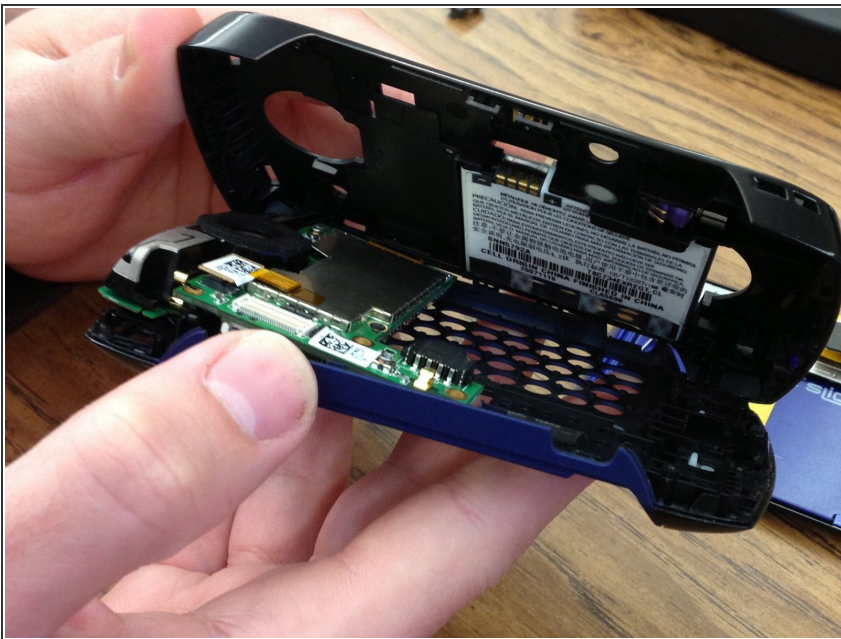

- [iFixit Opening Tools](#) (1)
- [Tweezers](#) (1)
- [Phillips #00 Screwdriver](#) (1)
- [Spudger](#) (1)

Step 1 — Phone

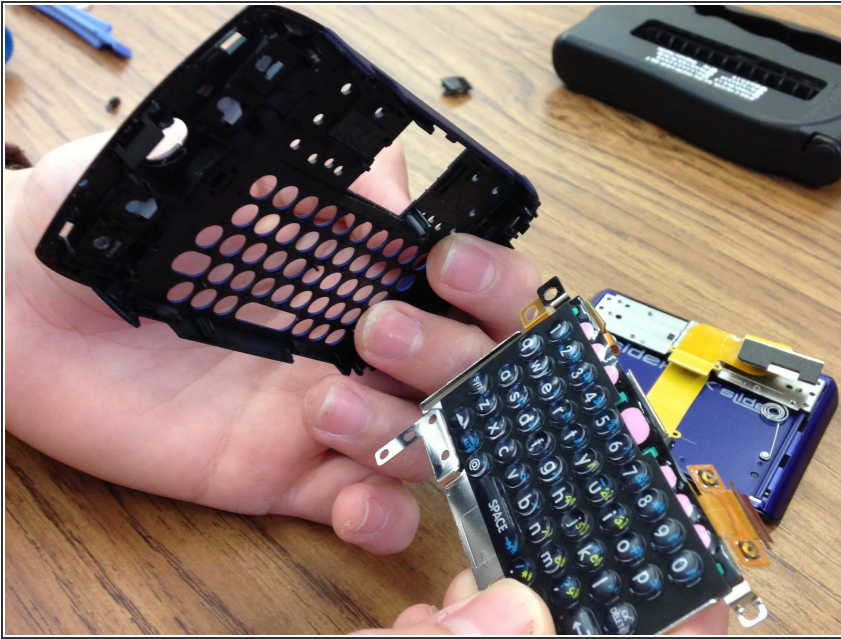

- On the back of the device unscrew the top right, top left, bottom right, and bottom left buttons using appropriate size Phillips screwdriver.

Step 2

- Once screws are dismantled, use plastic opening tool to assist separation of the top half of device from the bottom half.

Step 3

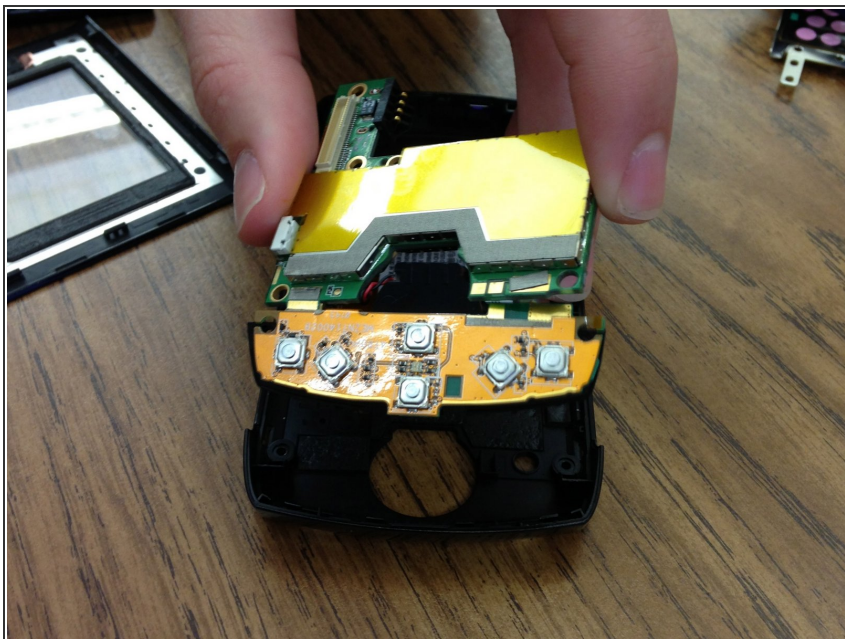

- Unscrew the screws around the keypad and take apart slowly and gently using your hands.

Step 4

- Use the plastic opening tool to pry the protective screen off the main part off the screen.

Step 5

- Remove the individual green and yellow technical pieces from the back of the phone.

Step 6

- Remove the battery

Step 7

- You have all the pieces separated.

Step 8

- Tools Used.

To reassemble your device, follow these instructions in reverse order.
