

How to Fix Ray-Ban Clubmaster Eyeglasses

Ray-Ban Clubmaster eyeglasses are known to break at the temples and top bar. In this guide, you will learn how to repair them with just a few simple tools.

Written By: Amanuel Demeke

INTRODUCTION

If the temples and top bar of your Ray-Ban Clubmaster glasses have snapped off, use this guide for a quick and easy repair with just a few household materials, no special skills required! The only thing you need to be cautious of is working with super glue in Step 3, but a pair of disposable gloves should keep your hands protected.

This repair guide can apply to any corresponding Ray-Ban Clubmaster sunglasses as well.

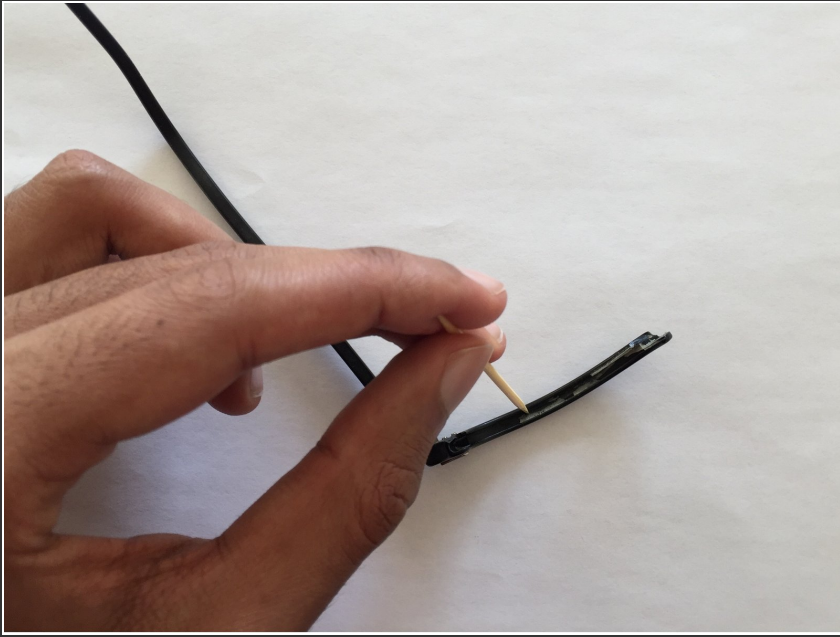

Get familiar with basic glasses anatomy here: <https://www.smartbuyglasses.ca/optical-c...> . These terms will be used throughout the guide.

TOOLS:

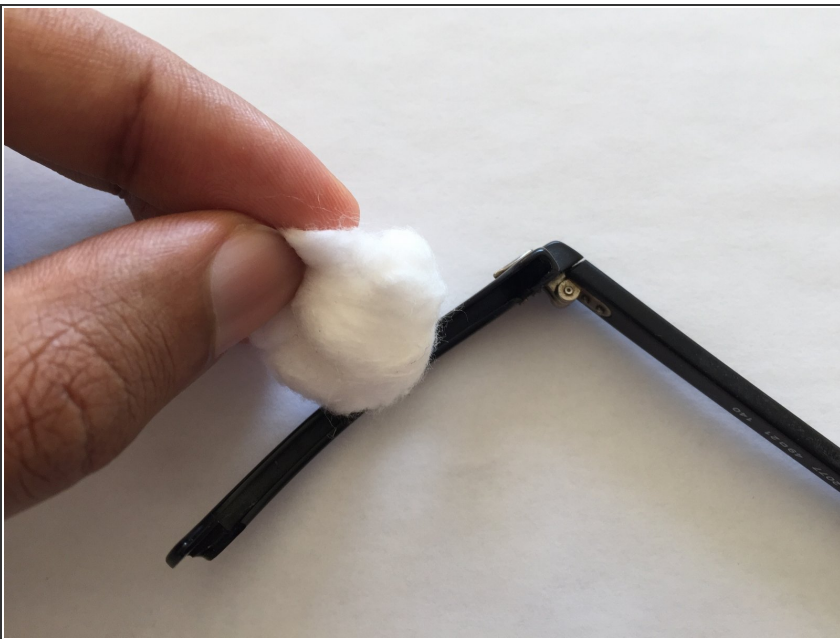

- [Toothpick](#) (1)
 - [High Content Rubbing Alcohol](#) (1)
 - [Cotton Ball](#) (1)
 - [Super Glue](#) (1)
 - [Paper Towels](#) (1)
 - [Disposable gloves](#) (1)
-

Step 1 — How to Fix Ray-Ban Clubmaster Eyeglasses

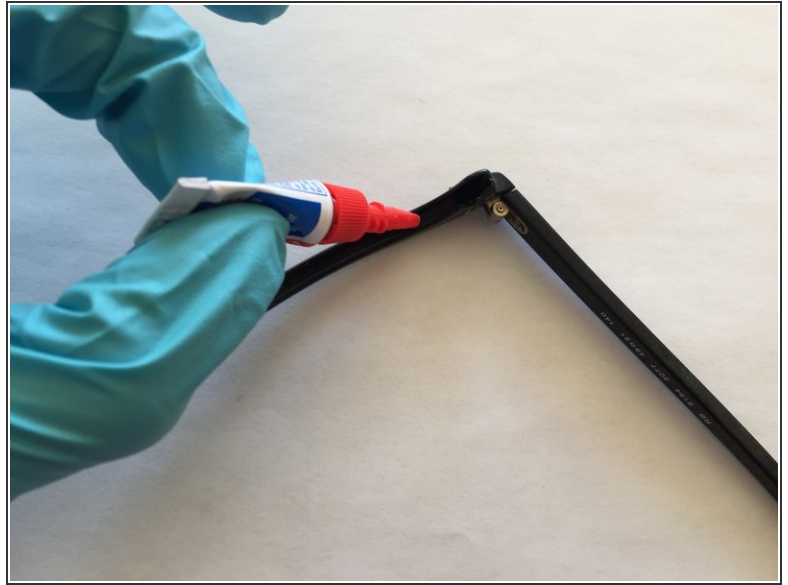

- Using the toothpick, remove any manufacturing adhesive inside the top bar of the frame.

Step 2

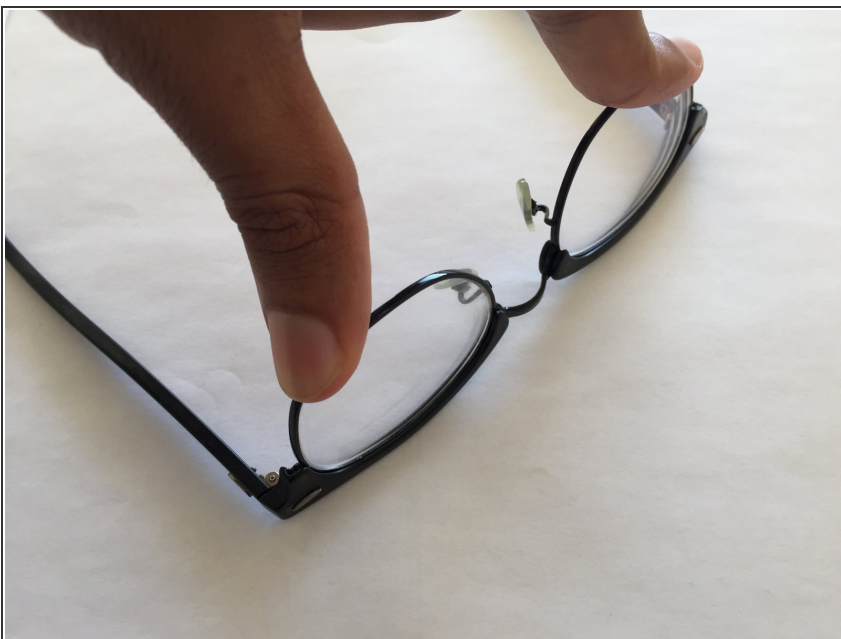

- Apply rubbing alcohol to a cotton ball and clean inside the top bar of the Clubmaster frame.

Step 3

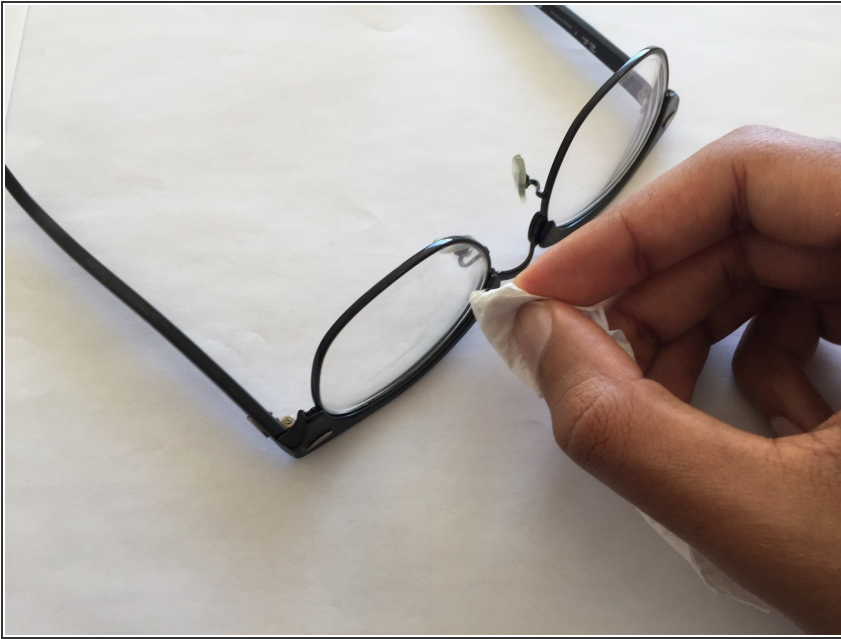

- Let the alcohol dry and apply a **thin** layer of super glue along the inside of the top bar of the frame, from edge to edge.
- ⓘ The glue should not be overflowing out of the top bar.
- ⚠ Wear disposable gloves to avoid contact with skin.

Step 4

- Firmly press the glasses lens(es) inside the frame.

Step 5

- Wipe away any excess glue on the lens(es) and frame with a piece of paper towel.
- ⓘ Avoid smudging the glue on the glasses.

Step 6

- Place the glasses upside down on a piece of paper towel and set in a cool place to dry for 24 hours.

If the guide is followed properly your Clubmaster eyeglasses should hold up perfectly!
