INTRODUCTION

This guide illustrates how to remove the screen for a Lenovo Legion Y530-15ICH which may become pixelated or damaged. A user may even want to replace the factory screen with a higher quality screen for better performance.

🔧 TOOLS:

iFixit Opening Tool (1)

⚙ PARTS:

5D10M42873 - Lenovo Laptop LCD Screen (1)

5D10R19779 - Lenovo Laptop LCD Screen (1)

5D10R04645 - Lenovo Laptop LCD Screen (1)

5D10M42889 - Lenovo Laptop LCD Screen (1)

5D10R00685 - Lenovo Laptop LCD Screen (1)

5D10S68976 - Lenovo Laptop LCD Screen - Genuine (1)

Step 1 — Screen

- Ensure the laptop is powered off.

Step 2

- Firmly insert the opening pick under the plastic bezel surrounding the screen.

- Work your way around the bezel until it is completely removeable.

- Remove the bezel from the display.

Step 3

- Carefully insert the plastic opening tool behind the screen to remove the adhesive.

Step 4

- Using a small metal spudger, disconnet the LCD connector.

- Carefully remove the screen from the device.

To reassemble your device, follow these instructions in reverse order.
