## INTRODUCTION

The product name and model number is the Container Store Big Flat Bungee Office Chair with Arms model number 10052635. This guide will teach you how to repair a loose arm on a swivel chair like the one in this guide. Step 4 requires you to check if the hole for the screw has become enlarged. If it has a larger hex screw may be needed.

### TOOLS:

- [6mm Allen Wrench](#) (1)
-

## Step 1 — Container Store Office Chair 10052635 Arm Repair

- Remove the screw caps on both sides of the arm of the chair.

## Step 2

- Place the screw caps to the side.

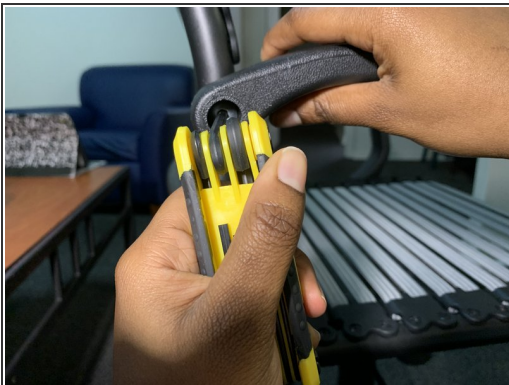

### Step 3

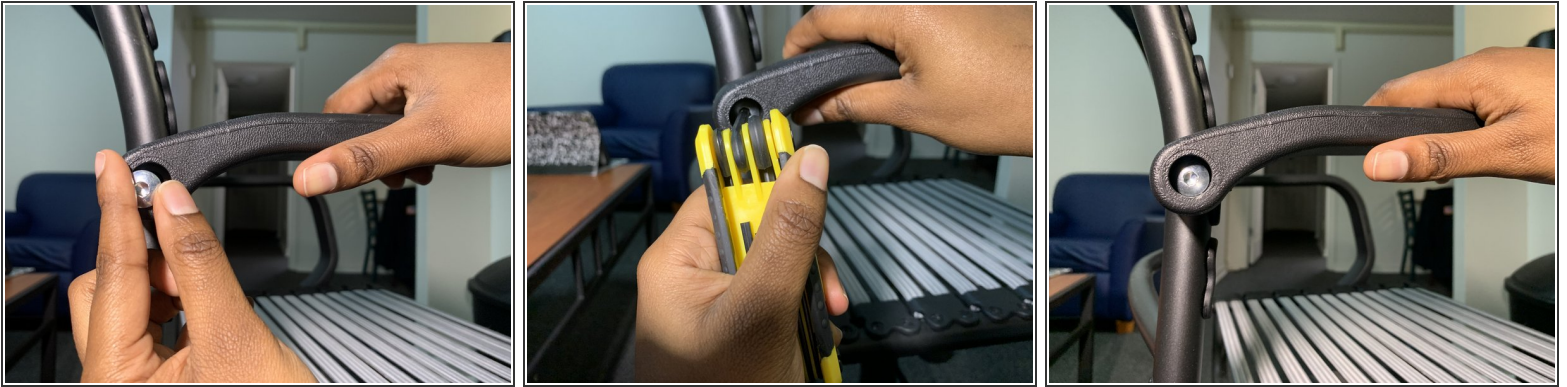

- Wiggle the arms of the chair to determine which sides may need tightening.

### Step 4

- Use an Allen wrench to remove the arm to make sure the plastic hole for the screw has not become enlarged.

## Step 5

- Use an Allen wrench to tighten the screw.

## Step 6

- Get the screw caps and place them back in the arms of the chair.
