INTRODUCTION

If you need replace the battery of your CASIO fx-82ES PLUS calculator, follow this guide. A calculator with low battery power may cause dim display or even the inability to turn it on. The calculator battery will drain over time and with repeated use.

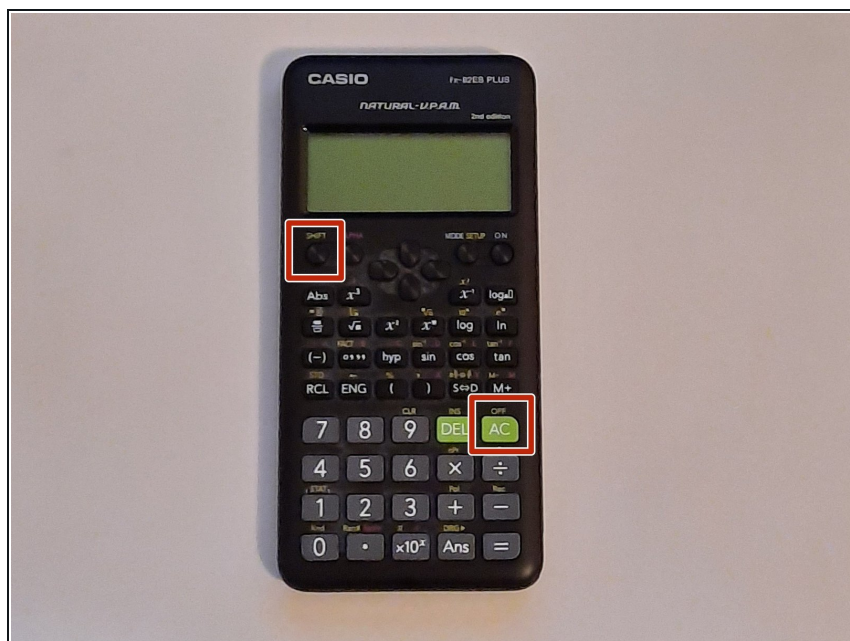

TOOLS:

Phillips #1 Screwdriver (1)

PARTS:

AAA Battery (1)

Step 1 — Battery

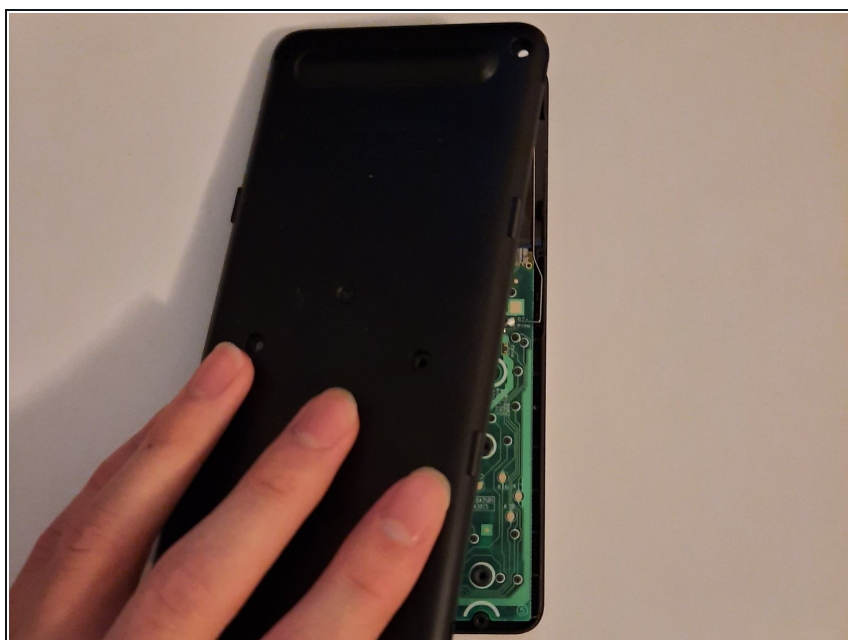

- Turn off the calculator before you begin by pressing the shift button first and at the same time press the AC button.

Step 2

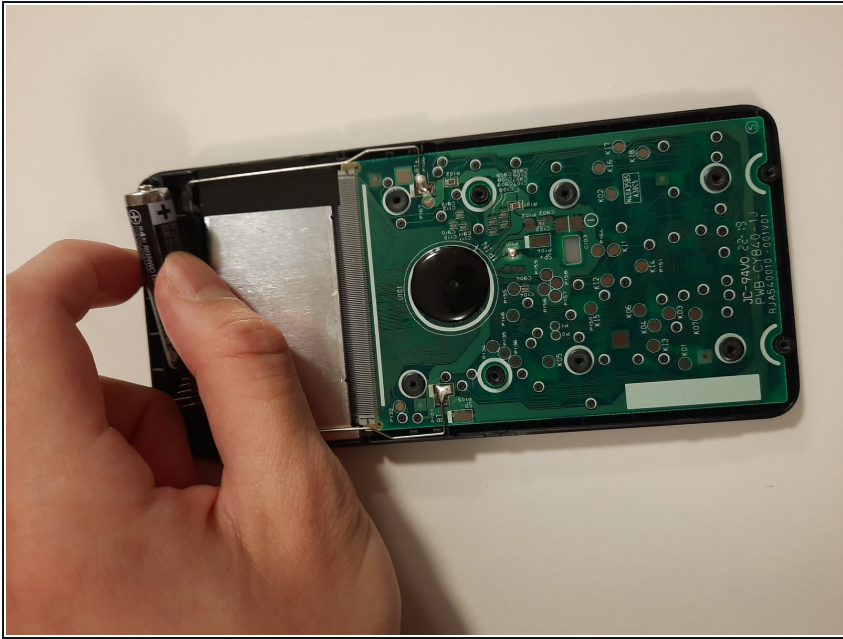

- Turn the calculator over and using the Phillips #1 screwdriver, remove six 5mm from the back cover.

Step 3

- Remove the back cover.

Step 4

- Remove the old AAA battery.

⚠ Be careful when you take out the battery to avoid damaging the battery slot.

To reassemble your device, follow these instructions in reverse order.
