Step 1 — Battery

- Place thumb firmly on battery cover.

- Slide thumb right, the cover should follow and pop up.
Step 2

- Place thumb on orange tab and pull back towards screen.

- The battery should pop up.
- Gently lift battery out.

Step 3 — Device Casing

- Remove screws from along outer edge of casing.

- There are 6 screws in total.

- (i) Righty tighty, lefty loosey!

This document was generated on 2020-11-21 08:39:39 PM (MST).

Step 4

- Gently lift off front and back casing.

Step 5

- Remove screws along side.

- Gently peel off side casing.

Step 6 — Lens

- Remove screws from front silver panel.

Step 7

- Lift up ribbon cable fastener with blue plastic opening tool.

- Gently pull out lens.

Step 8

- To place new lens, peel off silver tape before inserting ribbon cable into proper slot.

To reassemble your device, follow these instructions in reverse order.
