INTRODUCTION

Installing the Airport Card involves removing the outer case.
Step 1 — Remove Cube Core

- Release the handle at the bottom of the Power Mac G4 Cube by pushing it down. Slowly pull out the cube by holding the end of the handle.

  ⚠ Watch for any parts that may become entangled with the outer case.

- Push back the handle after you have taken the core out of the case.

Step 2 — Accessing AirPort Card

- Pull outwards on the antenna cable.

  (i) The cable should pop out of the card without much force.

- Pull on the clear tab outwards to remove the existing AirPort card

- Slide in the new AirPort card.

- Reconnect the antenna cable.

To reassemble your device, follow these instructions in reverse order.
