## **INTRODUCTION**

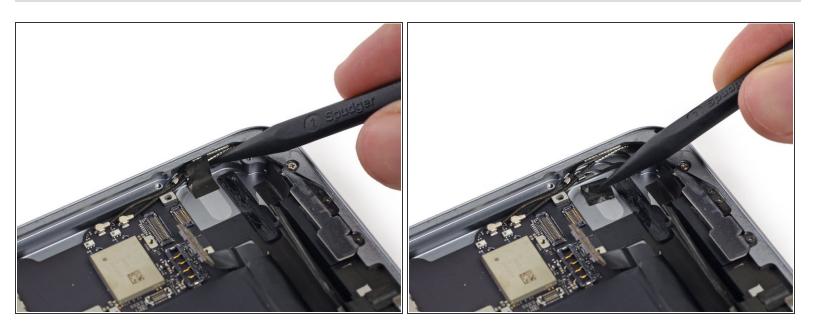

Prereq only.

# TOOLS:

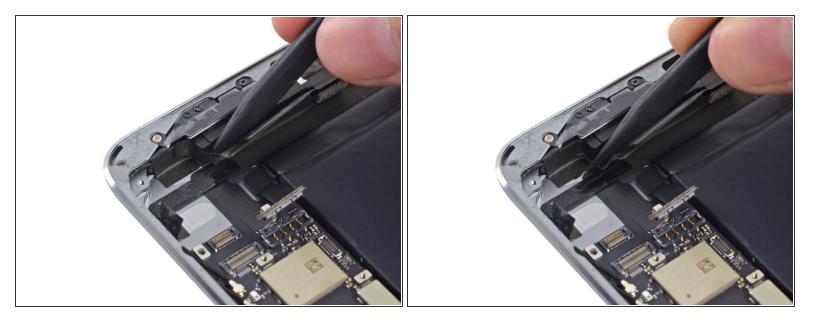

• Spudger (1)

#### Step 1 — Antenna Cable Tape

Use the tip of a spudger to peel the tape off of the antenna cables near the logic board.

#### Step 2

• Use the point of a spudger to separate the adhesive holding the antennas to the right speaker.

### Step 3

Use the point of a spudger to lift the antenna cable adhesive up off the rear case.

To reassemble your device, follow these instructions in reverse order.
