#### **INTRODUCTION**

The hard water stains can easily be removed using common household items: white vinegar, a spray bottle, and a sponge.

### **TOOLS:**

- Spray Bottle (1)
- Distilled White Vinegar (1)
- All-Purpose Sponge (1)

### Step 1 — How to Remove Hard Water Stains from Glass Shower Door

Fill the spray bottle with mixture of water and white vinegar (approx 50/50).

### Step 2

 Spray the solution on to the glass with the bottle.

## Step 3

 Wipe the solution on the door with the damp sponge.

## Step 4

 Let the solution sit on the door for several minutes.

### Step 5

- Keep applying the solution as it dries.
  - Keep the door wet for at least 5 minutes.

## Step 6

- Rinse the solution off the door with warm water.
- (i) If the results are not satisfactory, try adding more vinegar to the solution and go back to step 1.

Congratulations! You now have a sparkling clean glass shower door!
