

Lenovo Yoga 2 13" Fan Replacement

This guide will explain how to safely remove...

Written By: Nichelle

INTRODUCTION

This guide will explain how to safely remove the fan from your Lenovo Yoga 2 13". It will provide a list of the tools needed as well as the easiest way to remove the fan.

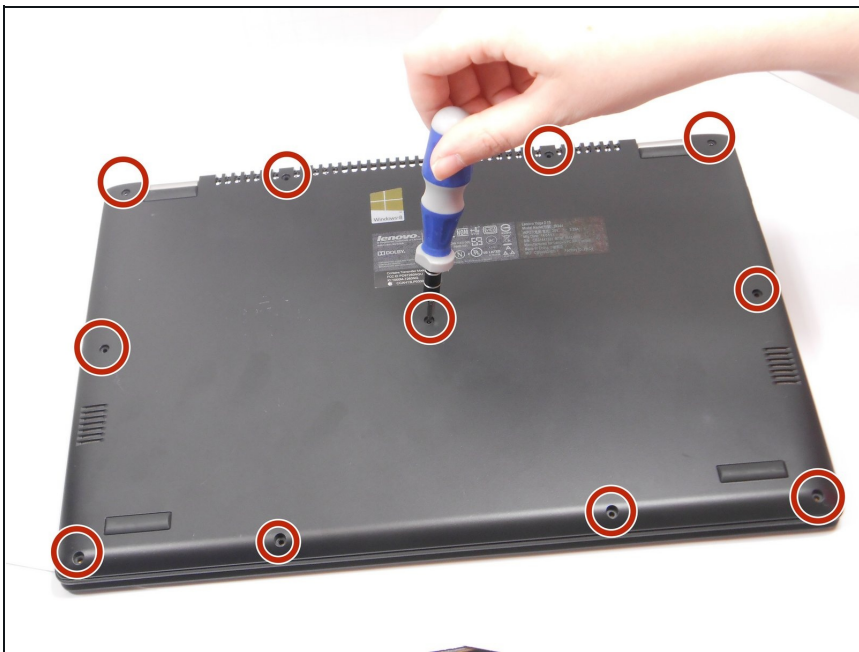

TOOLS:

T5 Torx Screwdriver (1)
1.5 mm Flathead Screwdriver (1)
Phillips #0 Screwdriver (1)
Magnetic Project Mat (1)

PARTS:

90205128 - Lenovo Yoga 2 13" Fan
(1)

Step 1 — Back Panel

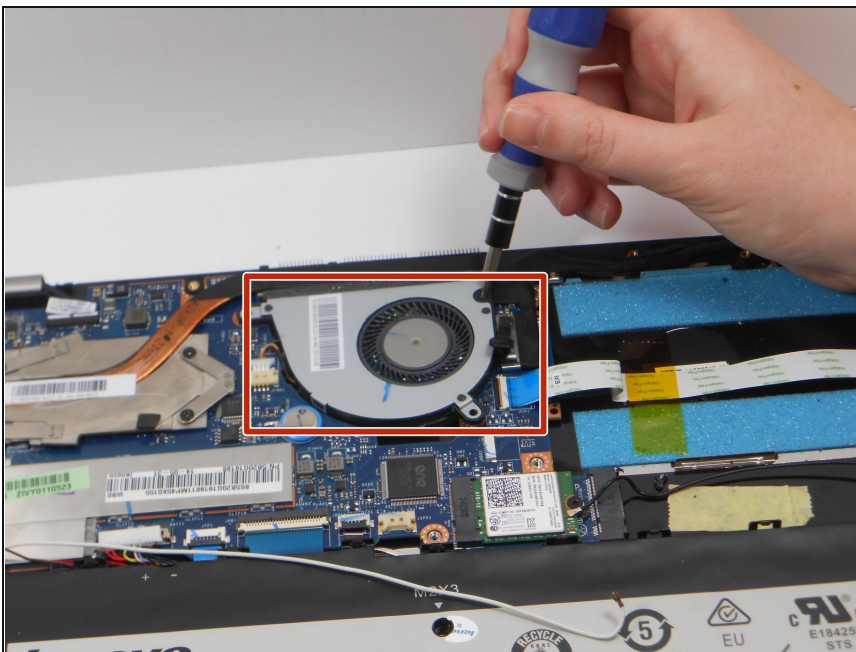

-  Be sure to power off and unplug your device before you begin your repair.
- With a T5 Torx screwdriver, remove eleven 6.35 mm screws from the back of the laptop.

Step 2

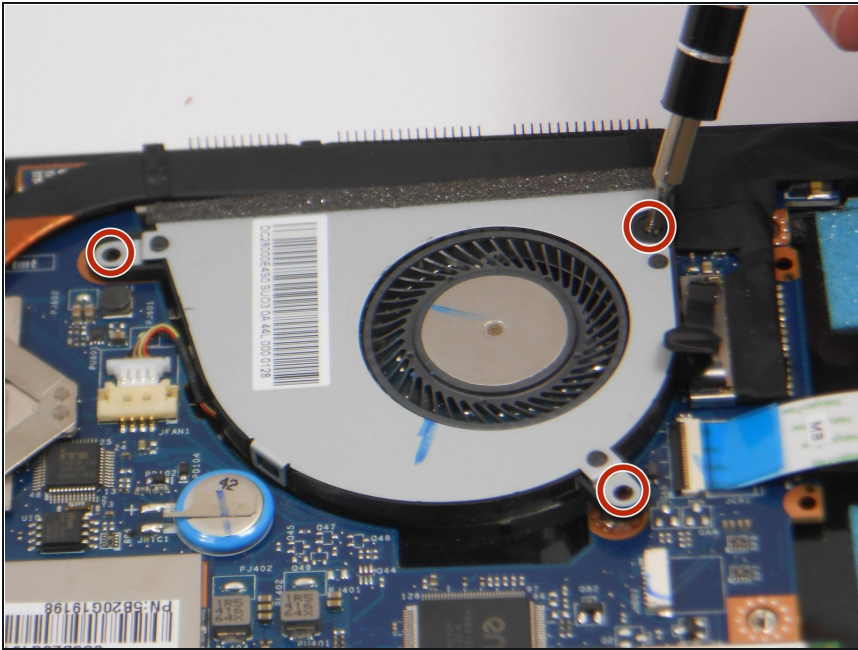

- Carefully separate back panel from the laptop.

Step 3 — Fan

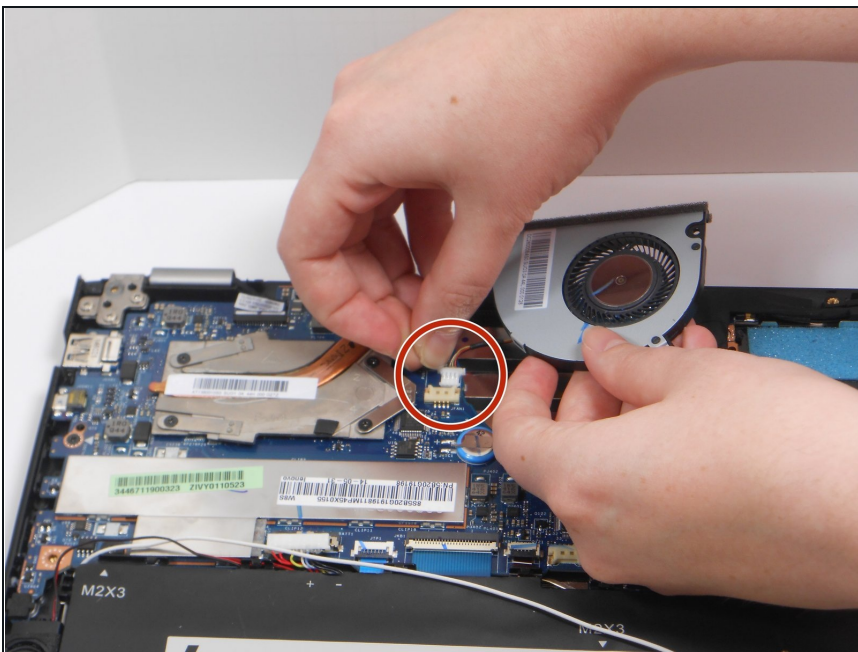

- Locate the fan near the top of the laptop.

Step 4

- Carefully unscrew three 2.381mm screws using a Phillips head screwdriver.

Step 5

- The fan is attached to four wires and a white clip. Carefully slide the clip out of the yellow port to completely remove the fan.

To reassemble your device, follow these instructions in reverse order.
