

VTech Little Apps Tablet Battery Replacement

Learn to remove your batteries!

Written By: Johnnie Cairns

INTRODUCTION

This guide gives instructions on removing the device batteries. The device uses AA batteries. When replacing batteries, be sure that the plus (+) and minus (-) sides of the batteries are inserted as indicated on the device.

TOOLS:

- [Phillips #1 Screwdriver](#) (1)
 - [iFixit Opening Tools](#) (1)
-

Step 1 — Battery

- Remove the 9.9 mm screw covering the batteries with a PH1 driver head.

Step 2

- Use a plastic opening tool to pry the batteries out of their holding.
- ★ If replacing your batteries with new ones, be careful to insert them as indicated on the device.

To reassemble your device, follow these instructions in reverse order.
