INTRODUCTION

You will learn how to open the ThinkPad X1 Carbon and replace the battery.

TOOLS:

Heavy-Duty Spudger (1)
Phillips #0 Screwdriver (1)

PARTS:

Lenovo ThinkPad X1 Carbon Gen 2 (2014) and Gen 3 (2015) Battery (1)

Step 1 — Loosen Cover Screws

- Loosen the seven cover screws. They will not come out.

Step 2 — Remove Cover

- Use spudger to pop loose cover and slide off.

Step 3 — Disconnect Battery

⚠ Only use plastic to remove battery connector

- Gently remove battery connector by pushing with the spudger in the direction of the arrow.
- Remove five screws holding battery in place and remove battery.

To reassemble your device, follow these instructions in reverse order.
