

iPhone 4S Home Button Assembly Replacement

Internal prerequisite.

Written By: Walter Galan

INTRODUCTION

Internal prerequisite.

TOOLS:

- [iFixit Opening Tools](#) (1)
 - [Tweezers](#) (1)
-

Step 1 — Home Button Assembly

- Use the edge of a plastic opening tool to gently peel the bottom right corner of the home button assembly from the display assembly.

Step 2

- Use a pair of tweezers to peel the home button assembly off the adhesive securing it to the display assembly.
- Remove the home button assembly from the display assembly.

Step 3

- Remove the home button from the home button gasket.

To reassemble your device, follow these instructions in reverse order.
